***Election/Restrictions***

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

The applicant is requested to elect between;

- A) claims containing a flame retardant (claims 25-29);
- B) claims containing an antimicrobial agent (claims 30-34);
- C) claims containing a fluid repellent (claims 35-39).

THE APPLICANT IS REQUESTED TO ELECT **ONE** of A), B) or C).

Depending on which of A), B) or C) is elected, a further election is requested:

i) within A)

- 1) claims drawn on phosphonate as flame retardant (claims 25-26);
- 2) claim drawn on FLAME RETARDANT 50 as flame retardant (claim 27).

ii) within B)

- 3) claim drawn on organosilane as antimicrobial agent (claim 31);
- 4) claim drawn on AEM 5700 as antimicrobial agent (claim 32).

iii) within C)

- 5) claim drawn on fluorochemical as fluid repellent (claim 36);

Art Unit: 1762

6) claim drawn on ZONYL 7040 as fluid repellent (claim 37).

A further election of species is requested between

- x) the fibers of claim 40 (TREVIRA CS);
- y) the fibers of claim 41 (AVORA).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 42 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 1762

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. A telephone call was made to Howard MacCord on June 27, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Art Unit: 1762
